EDUCATION

- REVA University** Bangalore, India
Bachelor of Technology - Artificial Intelligence and Data Science; GPA: 9.3 2023 - Present
- Sri Chaitanya Techno School** Bangalore, India
Class 12th - CBSE; Grade: 85% 2023
- Infant Eng Med H S** Bangalore, India
Class 10th - KSEEB; Grade: 93% 2021

EXPERIENCE

- Gas Turbine Research Establishment - DRDO** Bangalore, India
AI/ML (Data Systems & Engine Diagnostics) (Intern) June 2025 - August 2025
 - Predictive Maintenance & RUL Modeling:** Developed and benchmarked Linear Regression, Random Forest, XG-Boost, LSTM, and FCNN models on NASA C-MAPSS datasets for Remaining Useful Life prediction, achieving a best RMSE of 12.87 and R^2 score of 0.83.
 - Condition Monitoring & Diagnostics:** Analyzed high-dimensional sensor streams from gas turbine systems to detect performance degradation, validate sensor behavior, and support engine health assessment workflows.
 - Aerospace Systems Analysis:** Studied gas turbine engine architectures, performance parameters, and sensor ecosystems to investigate failure mechanisms and support intelligent diagnostics for safety-critical aerospace systems.
- Google Developer Group on Campus REVA University** Bangalore, India
Lead (Organizer) Sept 2025 - Present
 - Technical Leadership & Mentorship :** Led 25+ technical workshops, mentorship programs, and community initiatives across AI, cloud, and full-stack domains, engaging 3000+ developers.
 - Strategic Partnerships & Events :** Collaborated with Google for Developers, GDG Bangalore, Rotaract Club of Bangalore, and Hack2skill to deliver 3+ hackathons, bootcamps, and developer-focused initiatives.

PROJECTS

- Scarlet Link (Emergency Blood Network) [Link][Github]:** (International Hackathon Winner) Developed an AI-assisted emergency blood network that ranks compatible donors across 30,000+ donor records, achieving donor matching in under 2 seconds while enabling real-time emergency coordination among patients, donors, volunteers, and blood banks.
- Scarlet Save (AI-Powered Anemia Diagnostics)[Github]:** (GSC 2025 Regional Selectee) Developed a non-invasive anemia screening system using 12,000+ conjunctiva and nail images, leveraging Vertex AI AutoML Vision to classify anemia severity with 88% accuracy and support recovery tracking through clinician-assisted care recommendations.
- AI-Based Flood Region Detection System [Github]:** Built a U-Net model on Sentinel-1 SAR imagery, achieving 91% segmentation accuracy and 0.87 IoU for automated flood detection, mapping, and disaster monitoring.
- Campus Connect (Career & Learning Ecosystem) [Link]:** Developed a Gemini-powered student platform that bridges the gap in opportunity awareness by centralizing internships, hackathons, resources, and peer achievements for 300+ students.

PUBLICATIONS

- Research Paper: Hybrid LLM-ML Framework for Remaining Useful Life Prediction of Turbofan Engines:** Published at NCCM 2025; proposed a hybrid LLM-ML framework leveraging NASA C-MAPSS datasets for Remaining Useful Life prediction, condition monitoring and maintenance decision support in turbofan engines with RMSE of 12.87 on test set

SKILLS SUMMARY

- Languages:** Python, Java, C, JavaScript, TypeScript, SQL
- Technologies:** TensorFlow, React, Next.js, Node.js, Firebase, PostgreSQL, Docker, Kubernetes
- AI/ML & Data:** Deep Learning, Computer Vision, NLP, Generative AI, Time-Series Analytics, Predictive Maintenance, Condition Monitoring
- Cloud & Developer Tools:** GCP, AWS, Git, GitHub, Linux, Postman, REST APIs

HONORS AND AWARDS

- Best Paper Award - NCCM 2025** (GTRE-DRDO, Condition Monitoring Society of India)
- International Hackathon Winner - AI For Good 2025**
- National Talent Award -Karnataka Prathibha Academy,** for excellence in a national-level competition

CERTIFICATIONS

- Google Specialization:** Advanced Data Analytics, IT Automation with Python, Project Management, Business Intelligence

VOLUNTEER EXPERIENCE

- Build For Bengaluru 2026 & Build with AI 2026 Bootcamp, Organizer** Bangalore, India
Organized hackathons and bootcamps in collaboration with GDG Bangalore and ecosystem partners. April 2026
- Google Cloud Arcade Facilitator, Mentor & Judge** Bangalore, India
Guided 100+ students through Google Cloud Jams and served as a judge across multiple hackathons. Present
